A compact, but *absolutely brilliant* mix of chill, groovy and funky electronic tunes! I've been listening to this in-game, and out of the game -- tracks like *Intergalactic*, *Witching Hour* and *Catnip* never get old.

Worth noting, *only the base 6 tracks are included, the 2 added in during the Spellstorm Update aren't included. All the tracks are available as MP3 files -- if you're interested in getting the extra 2 tracks, and all of the tracks in other formats, you can get them for a few CAD at [Bogdan Rybak's Bandcamp](#).*
